MEMORANDUM FOR THE RECORD

SUBJECT: Trip Report 28-29 January 1970

1. Location and Purpose of Visit:

The undersigned visited Robins AFB, Georgia, on 28 and 29 January 1970 to attend a Life-Support Conference hosted by Col Peter Economy of the WRAMA, see attachment.

2. Results of Visit:

Col Economy and his Staff explained the mission and operation of the Depot and its relationship to SAC and to the Agency project. Item managers discussed their responsibility to the project and finally a walk-thru of the facility was conducted to explain specific Depot transactions.

Working-Group discussions were carried on for the remaining day and a half in an attempt to identify problem areas common to both the Air Force and the project Life-Support equipment. The ejection seat ECP for two test firings utilizing the new headrest adaptors was explained to the group by the undersigned.
